

AI-Empowered SAFe® SAFe for Teams

Contribute to a high-performing
Agile team empowered by AI.

Build your confidence to work effectively within an Agile Release Train (ART). This course gives you the essential skills to thrive in a high-performing team—from executing Iterations to participating in PI Planning. Now upgraded with responsible AI practices, this training equips you with modern tools to streamline your daily tasks and solve complex problems faster. You will leave ready to earn your SAFe® Practitioner (SP) certification with a personal plan to integrate AI into your workflow immediately.

What You'll Learn

Apply Lean-Agile Principles

Leverage principles like flow and customer-centricity to achieve meaningful results.

Coordinate Across the ART

Coordinate across teams to deliver value within the organizational structure.

Execute Iterations and Planning

Size and plan work in cadence to streamline productivity and performance.

Apply Practical, Responsible AI Prompting Techniques

Integrate responsible AI tools to streamline workflows and solve complex problems faster.

Topics Covered
